Gahanic Facial Treatment

A Gahanic facial can give you a much deeper penetration of ingredients than manual applications. It also reduces the volume of the skin for those prone to acne whilst helping to clear congestion.

This treatment can help remove sebaceous blockage and clear congestion that leads to acne which makes it a good option for those who suffer from acne. During the facial process exfoliating and nourishing substances need to be applied sooner for those with dry and normal skin to benefit from this type of facial. This is the best facial option to choose for those who need to rehydrate and revitalise their skin.

CRYSTAL CLEAR MICRODERMABRASION

Crystal Clear Microdermabrasion can take years off your complexion by gently exfoliating the outer layers of skin. Because it's a safe and controlled method of skin resurfacing, the treatment can be used to solve a wide range of skin concerns on both the face and body. It is an excellent progressive treatment for acne, dryness, lines & wrinkles, open pores, blackheads, pigmentation, stretch marks, scar tissue, sunken cheeks and much, much more.

CRYSTAL CLEAR OXYGEN FACIAL

Discover the ultimate in skin rejuvenation

Crystal Clear Oxygen Therapy is the perfect rejuvenation treatment for spring skin. As we age oxygen levels in the skin cells decrease, resulting in a loss of elasticity and the formation of lines and wrinkles.

Oxygen Therapy replenishes lost oxygen and the active ingredients in the serum restructure the skin, visibly plumping out the lines and wrinkles. The results are immediate but a Crystal Clear Oxygen facial continues to work long after the treatment, stimulating cell regeneration...the choice is crystal clear!
